

Architectural

- Surface facilities
 - Offices
 - Warehouses
 - Shops/garages
 - Compressor houses
 - Security buildings
 - Core logging buildings
 - Refuge stations
- Roof replacements
- Office/building renovations
- Facade replacements
- Ontario building code reviews

Civil

- Site plans
- Road network design, including haul roads
- Site traffic planning
- Condition assessments
- Pumping stations
- Site process water and storage tanks
- Stormwater management
- Grading, backfill, culverts and ditching
- Buried infrastructure and underground services
- Tailings infrastructure

Electrical/Instrumentation

- Process controls
- Power system analysis
 - Short circuit studies
 - Protective device evaluations and coordination studies
 - Arc flash studies
- Power distribution
- Switchrooms
- Grounding
- Fire alarm systems
- Energy management
- Communications systems
- Substations
- Overhead utility lines
- Backup power (UPS, generators)
- Lighting

- Cabinet design
- Functional descriptions
- PLC/DCS programming
- Underground systems
 - Leaky feeder
 - Central blasting
 - Telephone
 - Video
 - Fibre
 - Shaft cables

Mechanical

- Slurry pumping
- Process piping
- Heating and power plants
- Cogeneration and renewable energy
- Tanks and vessels
- Cooling towers, boilers, etc.
- Belt and screw conveyors
- Chutes and bins
- Equipment specifications
- Building HVAC systems
- Dust collection
- Plumbing and fire protection

Mining

- Maintenance engineering
- Hoisting plants, including headframes
- Shaft maintenance modifications
- Underground and surface material handling
- Systems (crushing, conveying, and screening)
- Loading pockets
- Mine wastewater treatment
- Ore pass modifications
- Ventilation
- Dewatering
- Mine longitudinals

Project Management

- Project conceptualization
- Business case development
- Multidisciplinary detailed design

- FEL studies and engineering reports
- Post-issued for construction (PIFC) services
 - Tender assistance
 - Shop drawing review
 - Construction support
 - Commissioning plans, checklists, and field support
 - General conformance reviews
 - As-constructed drawings
- Estimating
- Scope, time, and cost management
- Quality assurance
- Nontraditional project delivery

Structural

- Condition assessments
- Equipment access platforms
- Bridge design
- Cranes and lifting devices
- Conveyor galleries
- Building structural modifications
- Equipment support structures
- Concrete vessels, retaining walls, etc.
- Foundation design
- Demolition plans
- Concrete dam

Water/Wastewater Treatment

- Background studies and investigations
- Condition assessments
- Optimization studies
- Environmental assessments and master plans
- Hydraulic stress testing and modeling (water and sewer)
- Capital and operating costs
- Conceptual and detailed design for upgrades and greenfield facilities
- Potable and process water supply and treatment systems

Mining & Mineral Processing Infrastructure

Service Offerings

Civil Engineering
Electrical Engineering
Energy Systems Engineering
Environmental Engineering
Mechanical Engineering
Planning
Project Management
Structural Engineering

Talk to us today

Bill Bélanger, P.Eng., ing.
Principal Associate;
Senior Structural Engineer;
Mining Market Chief
705 360 3242
bbelanger@jlrichards.ca

Derek Koziol, P.Eng.
Associate;
Senior Civil Engineer;
Practice Lead, Civil, Water & Wastewater
705 806 3728
dkoziol@jlrichards.ca

Laura Grover, P.Eng.
Principal Associate;
Senior Structural Engineer;
Practice Lead, Surface Infrastructure
705 806 4086
lgrover@jlrichards.ca

Ray Lalonde, P.Eng.
Associate;
Senior Mechanical Engineer;
Practice Lead, Underground Infrastructure
705 806 6058
rlalonde@jlrichards.ca
